Tocoma Complains of Sourcity of Money-News

From the Big Bend Country - Walla

Walls Notes-New Astoria Paper-

Shattle, Jan 29.—[Special Telegram.]—This morning the steamer Virginia went ashore at Smith's Cove, about a mile north of the city. Yesterday the Virginia went to the assistance of the steamer Addie, which was sunk in a gale. This morning she started out from Port Madison for Seattle. After roughing live Mile, noise, the most

After rounding Five Mile point, she appt near the shore instead of keeping out into the regular roadstead and was blown by a

strong wind onto the rocks. She kented over and filled with water.

ver and filled with water.

The Virginia is an old craft, having been

used for a number of years in towing and jobbing on the Sound, and is estimated to

be worth about \$5000 by her owners, Captain Dyer and Price. At 10 o'clock to night she

TACOMA, SEATTLE & NOUTHERN.

Probuble Rouse of the Extension of the Northern Paville Unitreed. Taccan. Jah. 29.—Special Telegram—The party of Northern Pacific officials who have been visiting Seattle, looking over the ground for the extension of terminal facilities there.

were in this city to day. General Superin-tendent Kimberly had not much to say

about the prospective improvements there, but said the company must have more track

room and better facilities for handling business. Mr. Kimberly has been making his

annual tour of the read, taking in all the branches, and will leave for the East in the

branches, and whileave for the base in two morning.

It was given out at the headquarters building that the official name of the new linewill be the "Tacoms, Seattle & Northern Railway. Bugineers are how at work at Renton and will first run the line worth ward on the custern side of Lake Washington. Atthough nothing can be definitely learned until after the surveys are compliced, there is little doubt but that the line when thatly located will be east of Lake Washington and that Seattle will be left on a branch, or rather, a "Y," all trains being run is from the point of starting of the new line, or Black River Junction.

STEEL HAILS ON THE WROLE LINE.

The Union Pacific Improving Its Track Between Spokane and Walla Walls SPOKANE RALLS, Jan. 29.—(Special Tele-

gram.]—C. J. Smith, general manager of the Union Pacific, was in the city to-day attend-ing the annual meeting of the Union Depot

Company. He said to un OREGONTAN TO

porter that heavy sixty-pound steel rails were being distributed along the line from

were being distributed along the line from Spokane Fells to Walls Walla, and when the snow melts the old rails will be taken up and the new ones put down. This will make a final steel track over the Union Pa-cific between this city and Portland, and will enable the road to make much better time.

MONEY TIGHT IN TACOMA.

No Subscribers to Exposition Stock—Busi-ness Andeted by the Blockads. Taronia, Jun. 29.—[Special Telegram.]— Samuel Collyer, of the committee appointed to secure subscriptions to the stock of the

Northwestern Exposition Company, says that owing to the stringency of money just at present the committee has thought best to wait awaite before making any effort to

to wist awhite before making any enter to secure subscriptions to the stock.

The delayed minis of the last two weeks have greatly affected the business interests of the city. People are generally indisposed to do anything with the uncertainty of the mails confronting them. If, Collyer thinks it will not be practicable to hold the exposition until 1891.

WARMLY REBUKED BY THE HOUSE

on Bright Reporters

Indge Burke Decides That Holdover Senators Hold Over-The County of Steptos Mis-

Olympia, Jan 23—[Special Telegram]— Monitray and Gook to-day made their dying kick at the three reporters who wrote the anti-boodle story. When every sensible per n had begun to think the matter had died out, Cook offered a resolution demanding Scott's expulsion It recited that Scott had entoned if expelled to throw a bomb that would split the legislature wide open Mo the Post-Intelligencer of Monday, which charged him with attempting to s due in toto, said McReavy, indignantly 'It is false from the first word to the last

If expulsions are in order let us expel all offenders." Geoghegan then gave the house a good-natured lecture on its frivolity, whereupon the expulsion resolution was laid on the

Cook told a member of the house to-dry that he would resign unless Scott is ex pelled.

The house gave Mouliray a stinging re-

buke to-day, and one that made his jaw as long as the moral law Reporter Scott, of the Sentite Journal, who was the chief witness in the anti-boodle investigation, sent to roads and highways committee, of which Moultray is chairman. Moultray promptly tore the resignation to fragments and shortly afterward presented a long report, asking Scott's dismissal, charging him with neglect of duty. Scott, divining Moultray's McReavy charged that there was feeling be-Moultray's charges were not real charges. The house thereupon, by a vote of 36 to 27, rejected Moultray's report and accepted

it among members of his committee for signatures. Brown of Spokane refused to signatures. Brown of Spokane refused to sign it, and the other members affixed their names, not knowing that Soft had resigned the presentative Drew with after Moultray for his action to night. He said he would not have his name of the report for \$50. The question of the legality of the terms

of hold-over senators continues to be the topic of conversation in the senate. Senator Thompson, of Pierce, asked Chief Justice Burke, of Scattle, for an opinion, and has By section 4 of the constitution me

1650 will expire in 1894. The senators chosen at the first election in 1895, in odd numbered dis-

The Old Pennsy vantan Repaid a Political Debt of i oug Standing

moving their shipments to San Francisco from interior points. Three carleads of oranges which had-got as far east as bacramento were ordered to Portland by steamer, and they left on the Santa Rosa this morn-As I saw Senator Butler at the Hoffman house last night, save the New York Star, an interesting political reminiscence was recalled to me. But for the act of kindness by Pierco Butter which after generations came back to bless the nephew, the present sena-ter from South Carolina might never have beld a sent in the senate. The circumstance occurred when General Sumon Cameron was a second time elected United better senator. The late Governor Eigher was then his col-league. He nade an effort to induce the senate to investigate the charges that Mr. league. He made an effort to induce the senate to investigate the charges that Mr. Cameron had scented his election by bribery. He called the matter up one day, and made a speech de aling the allegations and asking the renate to take cognizance of them. Pierce Buller espoused General Cameron's cause, and made a speech in which he said that thesen it of the United St. tes was not the place in which the state of Pennsylvania could wash its dirty linea, and moved that the resolution for an investigation be not follows.

The city is cut off from rafi communication north cast and south. No trains are running on the South Pacific Goral road. The three lines to Sagramento, via Benic a, Martinez and Moles, are closed. No trains are running from Vallejo to Cal stogs and Senta Rosa. On the Northern Division of the Southern Pacific trains are on Principles and I sut branches are closed. The road from Daris, filte to Telman is wricked. The Oregon line is open from Sagramento to Red Bit ff Outher San Francisco and North Faciliar road no trains are running beyond fleeldsburg Until further notice the Southen Pacifia Company will carry on its business by running two boats botween here and Sagramento, which will give San Francisco connection with Los Angelias and New Orleans, and with the Rastern Citias over the Atlante and Facilia load. could wash its dirty linen, and moved that the resolution for an investigation be not agreed to The senate followed Butler's lead, and Cameron's title to his seat was not contegted. When the vote was aunounced that settled the controversy, Butler walked over to where theneral Cameron sat, and said "Now, Sumon, you ought to send hie a bottle of whisky with which to celebrate this occasion."

occasion."
"By my life Butler," replied Cameron,
"I'll send you a barrel of the best made in
Pennsylvania"

"I'll send you a barrel of the best made in Pennsyivania"

The liquor was sent, and ever thereafter the families of Cameron and Butler were fast friends. It is said that "time at last sets all things even." Nearly a quarter of a century after this occurrence, which has formed one of the sangular pages of the history of this country, the nophew of the man who did Cameron the service Inocked for admission at the senate with a context on his hands. A single republican vote would save his title. The father cated upon Don to repay the kindness of Pierce Butlet to him when Governor Budler was seeking to keep him out. Don assumed the objection and voted against his party, and M. C. Butler became a sen for To day the two annilies, differing so widely in politics and interests, are conspicuously friendly.

Stillead Of Consumpt on.

SI READ OF CONSUMPT ON. ules to de Observed to Provent Co

extion of the Discouse From One
I rann to notice.
There was long an idea that the disease

So title, was one of the many passengers from Oregon and Washington who returned here Thur-day last from the blo-kaded train a little north of Sims Thre was the train on which was Colonel C T Crocker, second vice president of the Southern Pasific Company, and who was en route Eist via Portland. This train was snow bound seven and a half days Mr Peterson, in describing his exp riences, says

Our train left san Francisco Toesday morning, the lith inst and reached Dela thirty-eight miles of Redding before it encountered any grat death of snow I he hame sistled there for a short time, and then wint on to bling, tactor mitts north of Delta where it arrived it encountered morning. The term was still out time, but the snow was falling nearly.

Of the hirectedines pulling the train, none had snowplows, nor had any of those in the retreet one, which was of the old phelance style and in the hirected phenomenance of the cold of a nothing. Conductor American records a control to the train, and telegraphed for instructions but was told to go shead. The officials users anxious to go, the train through, and collected and the anxious to go, the train through, and collected and the state of the road was to so forward and not backward.

The road from there on war up grade and very crocked, and the snow grew deeper very rapidly. The it win got stock a half mile north of Sims and then innaged to cross two trails and got through a long time of the condition of the known as consumption was not communi-cable from only person to another But the fact is now well estably had that this opinion is erroneous. The germ of the distance exists in the expectoration of persons afflicted with it. The collowing extract from the re-port of the health department of New York city explains the means by which the disease may be transmitted

ease may be transmitted.

SAY FI ANCISCO GUT OFF FROM THE WORLD

Yesterday San Francisco was more completely shut off from the outside world by railroad communication than at any time

in its history since rullroads have been built The situation then which is but lit-

Snow and storms have played such havon that all thoughts of carrying on business

and running freight and passenger trains is

and running freight and passenger trains is for the moment superseded by the pressing demand for repairs. A report comes from Redding-that a short distance above Sims, on the Oregon line, a snew and landshide occurred that carried the ratiroad track and all telegraph aires down into the river. The Western Union Company has tried in every way to get these wires up, but the railroad company says that at present it is simply impossible for a train to push through to min 1 ont near there, and when this odly can have direct wire communication with Oregon and Washington is now only speculative.

A BLOCKADED PASSENGER'S STORY.

Frederick H Peterson, a lawyer from Scittle, was one of the muny passengers from Oregon and Washington who returned

The road from there on war up grade and very crooked, and the snow graw desper very rapidly the road from there on war up grade and very crooked, and the snow graw desper very rapidly that it not stuck a holf rollo unith of Slims and then managad to cross two trastless and go through a long tunnel.

The on a curve and in a cut the train stuck fast. The passengers wanted to go back i mediately but the officials thought we could get rered from figuramic, thirteen miles north, and so sall strugched to get hoseball strengthed to get through the calling inmention that the should be north, and so sall strugched to get through the calling inmention the sandarday morning when, the coal sening contributed to the woodpile. The surplust in the buffet car had given out thursday. There was a small hatel two and a hail miles from where our tril lay and tho conductor made not trips there for food, but almost a hail miles from where our tril lay and tho conductor made not trips there for food, but almost a made and the structure of the surplust in the surplus of three of the order to a surplust of the surplust in the surplust of them and the surplust of the surplust in the surplust in the surplust of the surplust in the surplust of them and the surplust of the surplust in the surplust of the surplust of the surplust in the surplust of the surplust in the surplust of the surplust in the surplust of the surplust of the surplust of the surplust in the surplust of t

very acceptable. The beef, bread and a mixture they called coffee, was served up by three men in a box car. The beef had been sold to the rail road company for 20 cents a pound.

On Monday we neoved a half mile farther to wa designs and on freeday we recated Sims. All they had left at the little way ade hold on the hil when we returned, were two cans of goose berries and one can of raspherries. My wife and I had clambered up there on the trail and I not ont of the caus. The milk had long since given out at 30 cents a put there on the trail and I not out at 30 cents a put there on the trail and I not collect Occurs as a not one can control that I near into Colonel Copietar can control thin about it. He said he was protty short of provisions, too, but he guide me two silves of bread and a piece of chicken. These the baby ate and we did without. Cole net. Crocker gave out much food but he was importunted so much and was ached so many questions that he kept servinded in his car.

From .00 to 500 men were digging to get us out Pinatis at 1 A M to Wednesday we left Sims for both principes an at length reschul D. Ita Time there was a wide seramble for anything the of the principle of the control of the contro

WOUSE HARDSHIPS IN THE SERRAS

Mr Peterson's hardships, although se vere, are not as great as those of meany pas songers on the blockaded trains on the Central Pacific rairoad. This too, notwithstanding the fact that the railroad company is understood to have used extra exertions for the comfort of its passengers. A telegram last evening from Reno Nev, on the eastern slope of the blerra mountains, states that there were seventeen west-bound trains in a belated condition at that place, all in line. Hundreds of passengers were applying for meal tickets. The supply of eggs, butter and milk was out off and relief had been asked from Ogden and Wadsworth. The storm was till raging, and the proapects of getting through to ban Francisco were gloons.

The railroad officials were entirely unable to the forth much of thingry emigrants. A mass meeting of the 300 passengers there had been called to arrungle for a supply of food.

ACCIDING TO CONTING ACAINST

The railroad company has had no less than fi ty accidents to contond with during the snow blockade in the Sierras First, plows would be broken alown, then be thrown from the track Sheds would be crushed to, or all work which had been ac complished would be buried under a snow slide. Last reports from Gold Ran, in the Sierras state that the town is only hill visible—that is the upper part—for the tops of the houses alone are to be seen above the wast deposit of snow Occasionally an old flume, oan be traced in the accan of whiteness by the ridge of snow plied upon it

Directly across the track from the station a freight train is side-tracked the cars being buried out of sight in snow, which has piled upon them ten fest above their tops

Directly or snow. ACCIDINTS TO CONTIND ACAIDST

DEPTH OF SNOW. Lae depth of snow here will seem more remarkable when it is known that snow seldom fails at Colfax, which is only eleven miles west of Gold Run At Blug Carryon, which is fourteen miles east of Gold Run but at a higher elevation the buildings are now nearly covered with snow. Some of the smaller houses are almost completely hidden, and holes have been dug through the snow to put chimneys through, so that the smoke may occupe from residence. The hotel can only be reached by passing through a tunnel in the snow over thirty feet in length. The snow was suxten feet deep when list measured, and two or three feet have fallen since more remarkable when it is known that

NIAGARA PALIS IN HARNESS.

The Problem of Littizing the Power Claimed to there Been boiled The typical American who said, when tamated with the dea that we had no Ventanted with the deal that we had not well vious over here. No, but we have a water fall that-will put it out, ' would doubtless be overjoyed to hear that the waters of the liagara are to be applied to a more useful purpose nearer home The long-considered problem of utilizing the great water power appears to have been solved by a Canadian These famous falls, it is estimated by the

Flectrical henew would, if fully fittized afford all the way from 10,000 000 to 75 000 -000 horse power, probably chough to run all the machinery in the New England states fibe magnitude of the undertaking, as well as the fact that no water wheel has ever been found adapted to such conditions, has here-

that no water wheel has ever been found adapted to such conditions, has herefoliore discouraged any attempts to make use of this studendous power. Turbine wheels, it is well know, cannot be operated under such head as these fails afford their usefulness being limited to heads ranging from ten to thirty or forty feet, and as there are miny other streams from which this much fatt can be obtained that do not present such difficulties of application the great wenith of energy Ningara infords has been allowed to run to waste. A commission from the Canadian authorities, concisting of a member of parliament and several noted engineers, recently visited the Pac file noust to investigate the merits of the Protine waterwheel with reference to its adoption in various enterprises projected in the provinces, but more particularly for the purpose of utilizing the water power of Niagara Fails from the Canadian side. The result of the investigation was suffsictory in the highest degree, and will undoubtedly result in the first attempt to make this gigantic force available for manufacturing and commission proposes. The hight of Ningara Fails is 166 feet. By carrying water in steel conduits down the rapies a distance of about three-quarters of a mile to a point below the rapids a full of 200 feet can be obtained. This entire fall it is proposed to utilize, placing like whoels above high water mark along the bank of the river and locating various manufactories on accessible sites above, the power from the wheels to be carried up by a systim of cable transmission. Anywhere from 100 000 to 600,000 horse power can, it is estimated to the first waster of the internation of the river and to the time of the river of the true manufaction of the other of the river of the first waster of the first attent which sweeps tun of cable transmission. Anywhere from 100 600 to 600,000 horse power can, it is estimated he obtained in this way without any appreciable loss in the current which sweeps along with such fressible force. In addition to local munufactories dynamos will be run to supply power and light to the adjucent towns and eitles, as also to transmit electrical carery and light to the cities of Bulfalo and Toronto, which are only about twenty miles distinct. The project, though one of great magnitude is now believed, with the means at hind, to be perfectly practicable, and the unitation of these great falls, about which there has been more discussion than any other problem of modern times, scens ab an to be realized.

C se f ist hen Identity

Washington Post. Speaking of inistakes in indentification," said William Hott, a most entertaining North Carolinian, who is spending the sea-son at the Metropolitan "I can tell you a son at the Metropolitan "I can tell you a strilling instance if you will promise me to comit the names of the parties. Not long ago a gentleman went from our town to hew York to dispose of a crop of cotton.) He was seated in the lobby at the St Nicholas hotel, when a stranger approached him, and, tapping him on the shoulder, informed him he was under arrest. My frund demanded an explanation, but the detective, for such the stranger proved to be, said he could give none only having orders to acrest him. With this the officer pulled a photograph from his pocket and a kild my friend if that was not his picture. The photograph was an exact likenest, and the atomished North Carolinian had to admit as much.

The latter then began to suspect that an attempt was being mide to play some kind of a binco game on him and appealed to the hotel people for protection. The detectiva was able to prova his authority, and there was nothing left for my friend to do but we manny him to headquarters. Io make a long story short it turned out that he was not the man who was wanted hat that he look do so much like the fuglitive that a photograph of one would carriy answer for the other. My fullow lownsham was allowed to depart, and carried with him one of the photograph of the original of the photograph.

An Argument That Rich Men Do Not Algreen a rich man obtains office by appointment or by a popular or legislative

When a rich man obtains office by appointment or by a popular or legislative election, says the Chicago Resald, most persons are prompt to say that he bought it That many public positions in this country have been obtained by the direct payment of money or by "putting money where it will do the most good" is not to be questioned. But it should not be taken for exerted that exerct the man who obtains a granted that every rich man who obtains a public position secures it by money paid to voters to the person who has the appoint-ing power, or to the munigers of a political party. George Washington obtained the highest office in the country and was one of the richest men in it, but no one believes he spent money to secure it. Quite likely the circumstance that he presessed large wealth circumstance that he preserved large wealth and was able to meet the expenses of the commander or chief of our armies had considerable to up in causing him to be selected for that position. Having been successful in apparatus to the factorial and the constitution of cessful in securing the independence of the colonies, his election to the presidency fol-

for patriotic services

It is likely that the same kind of ability It is likely that the same kind of ability that enables a man to amasy a fortune also enables him to obtain public positions. The man who makes \$16,000 000 before his becomes old is possessed of ability far beyond that of most persons. This ability may not enable him to compose a poem or write a book of great merit, but it may enable him to accure votes. Men who obtain wealth in trade generally possess all the elements of pepularity, and the popular man is successful in obtaining votes. Men obtain large wealth by trade purity because they have a good knowledge of buman nature. This kind of knowledge is of the greatest value in obtaining votes. Men who succeed in making money are generally energetic and industricut, and energy and industry are important factors in obtaining office. The kind of attraction that brings customers to a store owned by a man who is a favorite in the world of trade will bring them to the polic it years afterward helis a candidate for office.

poist it years atterward nears a candidate for office.

It is natural that men who have inherited wealth or have acquired it by their own exertion should sack distinction in some other way. Mr. Astor is now ambinuous of acquiring fame as a novelist. Peter Cooper became interested in art after he became very rich. One rich man in Cahlornia and another in New York turned then attention to astronomy quite late in life. All these men had money enough to satisfy their ambition in one direction, but they were not contented to be simply known as persons of large fortune. If a min who has obtained great wealth he sno tasto for literature, science, wealth his no tasto for literature, selemusic, or art, or bus reached an age w

The Legend of Mace's Bar.

New York Sun
About a century ago a rakt-h looking
chooner bore down to Mace's day, which strikes in from the Bay of Fundy, on the New Brunswick coast After some maneuvering, she ren into the bay and came to anchor A boat was lowered, and with muffled ours, the men pulled for the shore The moon peered through the clouds suffientity bright to throw light upon the whole proceedings. The men dug a hole and buried their treasure. The bearings were taken, and the boat again headed for the vessel, which was soon running out of the bay, with a stiff breeze after her. The men bay, with a stiff breeze after her. The men who were engaged in this business have all long since been placed under the ground and the whereabouts of the treasure has been kept a secret until recently the chart locating the treasure found its way into curious hands, who determined to investigate. The secret was known to two only, who one year ago went to the spot, dug up the long hidden box, and returned it to its hiding place. They admit finding the treasure, in evidence of which it is said that one of the men has begun the creation of a fine dwelling near St. Stephens. They refuse to diving their secret or make any explanation.

AN OPEN LETTER

Pr fessor J P. Looney, Principal Fulton Public School, in 1 avor of Drs Durcin Drs. Darrin Have a Branch Office in Tacoma,

Drs. Darrin Have a Branch Office in Tacoma.

Editor Orego man—Dear Ser. I am not in the habit of puffing advertising doctors, but I cannot let this opportunity pass without mention, in justice to the afflicted as well as Dr Darrin. The doctor has cured me of a troublesome entarth and brouchids of seven years standing, by electricate and medicine. The cure is perfect and permanent. I cheerfully recommend his treatment, and will answer all letters addressed to me at Pordand. Jun 22 1890

There is something about the success Drs. Darrin are meeting with winch is truly hard to credit, yet we have it from persons whose veracity we cannot doubt, that their cures are remarkable. The roove case is peculiarly striking. Professor Looney is a man of undoubted integrity and well known throughout the state and nation. The above call to Drs. Darrin is positive proof of the unexampled success which attends their electronic testing the success of many years' duration for the bows how ridical is well as unexpected, are manyl of their cures, and how chronic diveases of many years' duration are unable to resist their skill, and is but one of the many cases which he doctors have undertaken, and is only onto of the secres of patients to whom they have restored builth. The author of the above at tement, we have full he same by no other motive thing gratitude for 11 cure and a desire to make known the near is to other as unfortunate as himself. When we'll co what a gre ibour is health—when we consider that without it the slightest ap proach to happiness is impossible—intuit is, in short the greatist earthy blessing—can we be other wise than immeasurably surprised to find anyone who has bed thing test treasure and yet heatales to folice a planing defined path leading to its recovery? To see a siett man or woman neglect or refuse to visit Drs. Darrin, who may do him or her some good, and cannot do harm, is equally as inextincate, but their fine is so widespre d it is unnecessary. The foctors treat all circtunes could fill this page wit

HIGHEST AWARD IN OUR Class !

WE LEAD THEM ALL!

Bronze Medal! Bronze Metal!

There is no proprietary medicine in the world that has grown into popularity and invor in so short a period of time as the remedy known as THE GREAT SIERRA K IDNEY AND LIVER CURE The Sierra Chemical Co., minufacturers of these valuable goods is composed of bright, active Californians, of thorough and long experi-ence in their line of business. They have shown wonderful enterprise in bringing before the public a purely vegetable compound, the chief ingredients of which are composed of herbs gathered on the sides and in the canons of the noted Sierra range of mountains, from which this remedy takes its name. At the MECHANICS EXHIBI-TION, 1889, this company were awarded the highest premium given to medicines-A BRONZE MEDAL. The committee that conneed this verdict was composed of the two leading analytical professors on this coast, viz: Professors RISING and WENT-ZEL. This goes to prove its superiority over all other preparations. Delightful to the taste and as a positive cure for all Kidney, Liver and Bladder troubles it has no equal on earth.

All druggists sell these valuable 300da.

DEATH OF A MOST ESTIMABLE WOMAN. Mrs. H. A. Rines, the lady of whose serious (il. neas monition was made a few days ago, passed peacefully away at her home in East Portland, at 12 o'clock last night. She was a little less than 62 years of age. She was a little less than 62 years of age. She was a plonder of 1819, and had identified her whole life with the religious and chucational history of the Northwest. She died without a struggle or a grown. Funeral halps hereafter.

LITTING THE FALEN.—At the regular monthly meeting of the board of managers for the Refuge Home, held. Januar, 28, reports showed that eighteen inmates had been cared for during the last menth. The board feel more and more strongly that they must 'arise and build," or fall to meet the domands of the work.

to meet the demands at the work.

WELL Get OFF LECKY.—The Baldwin Land
Company, who have 20,000 slicep on The creek,
near -Princylle, and on different ranches in
hear been feeding some of their that section, have been feeding some of their flooks, and say they will get through the whiter without loss. Some of the cartiemen will not get off as lucky.

SENTENCE COMMUTED .- Frank Anderson sencencya from "ortland fourteen months ago for two jears for robbing the Northern Pacific ex-press of \$10,000 was released from the penitu-tiary restorary, devernor Pennoyer having com-muted fentence.

TOE A NICE BREAKPAST dish use Morchant Roller Mills relied onts. They have no equal. STRAM EXGINE and boller for sale. See "ad"

YESTERDAY IN THE COURTS. The Rouners Sentenced-The F. & W. V. Ry. Sned

Again-A Sannyside Offinder-Police Court. Hazei Nelson and John Bonner, convicted Tuesday of robbing John F. Libby of \$570, in the Delta saloon, lanuary 17th, were brought into court yesterday morning for sentence. A brief plea for mercy was critered by the defendants' attorney, and Judge Stear is imposed a sentence of two years upon Hazel, and three years upon John. The man was considered more guity than the woman, as she undoubtedly acted under his dictation.

LIKELY A TRUMPED-DE CHARGE

Harry Moulton was tried yesterday for assaulting his wife, Minnie Moulton, the assaulting his wife. Minnie Moulton, the variety actress, with a pistol. After the presection and given to its evidence, he took the stand in his own behalf, and made a statement which was his only defense. The jury found a verdict of not guilty in a few minutes. The opinion provais that another man has nearped. Moulton's place in his wife affections, and that she sought in this manner; to get him out of the way. Moulton is again at large, after being in jail since December 16, in default of \$100 bail.

CHANGED HIS PLEA. Samuel Wright, colored, withdrew his plea of not guilty yesterday, and pleaded guilty before Judge Stearns to charge of obtaining money under false pretenses. He was promptly sentenced for one year in the pentientlary.

FILED MES BOND.

Vesterday afternion W. G. Beck filed his bond in the county court as administrator of the partnership estate of William Feck & Son, in the sum of \$90,000. His sureties are Van B. DeLashmutt, D. F. Sherman and C.

ON SCRIPTURAL GROUNDS. In the circuit court yesterday, Frank P. Yost began d.vorze proceedings against Mary A. Yost, to whom he was

married near Albina, or the 22d of February, 1882.
The ground upon which the plaintiff bases In ground upon which the plaintiff bases his complaint is the crime of adultery, alleged to have been committed by the defendant with one William Berry, at Statkle prairie. The issue of the marriage is three children, the dustody of whom the plaintiff pray for, Mrs. Yost is said to be now living with her mother, Mrs. Kate Baxter, at Vancouver.

COUVER. A serious stumbling block has been put in A serious situabiling block has been put in the way of thirsty pilgrims to Sunnyside. Joseph Holder, the Sunnyside grocer, has been indicted by the grand jury for two offenses. One clarge is that of selling liquor without a county license in less quantities than a gallor, to C. J. Wren on January 16. He is also charged with selling liquor to Morils Fowler, a minor, December 18, last.

PROBATE AATTERS. The will of Nathan Underwood, who died in this city on the 24th inst, has been admitted to probate in the county court. deceased devised his entire estate to his widow, Mary A. Underwood. The estate consists of \$150 in cast and Edward C. Underwood's demand note for \$300. J. H. Monagie and H. L. Ress have qualified as or outland.

Monngle and H. L. Rees have quantice as executors.

Albert Lando and May Cooper secured license to wel yesterday, and were married forth with by Judge Callin.

Josephine X coum has been appointed administratix of the estate of George W. Yocum and has filed a \$2000 nond.

Ar hie E. Nichols has been appointed guardian of Alice, Fred and Walter Young, witness.

minors.
Frunk H. Rosenburg has been appointed to administer the estate of Mrs. C. M. Johnson and furnished his bond. DEBTOR AND CRIDITOR.

J. M. Leavens was garnisheed yesterday to secure a claim of Nicolai Bros. against L. F. Binzer for \$714-33, interest and attorney fees.

W. C. Noon & Co., by Thomas F. Osburn,

make complaint against the P. & W. V. Rallway Company for \$84 59 and interest, goods sold and delivered. OFFICIAL MOVEMENTS.

Deputy Clerk A. N. Church has been sick now for nearly four weeks. He is slightly

Or or D. C. Bogart has been ailing several days and is now continued to his room.
Deputy Sheriff Migner goes up to Salem this afternoon with John Bonner, Hazel Netson, and Samuel Wright, colored.
There are a good many extra official morements these days, on account of the door being tooked between the two departments. It is unite interesting to watch the various attaines make the circuitous route up and down Stairs to get from one room to the other. Attorneys and reporters are similarly discommoded. Hence these tears. Judge Stearns him appointed A. M. Brown temporary ener to serve during the illness of Mr. Bogart.

The Folice Court.

of Mr. Bogart.

The Folice Court.

Ten Smith, the carringe washer in Wilbur & Moulton's stable, was yesterday arraigned on a charge of opticing a girl under, sixteen years of age away from her home for immoral purposes. Smith waived examination, and was bound over to appear before the grand jury under tonds in the sum of 5000. Smith is no principal in the seduction case, but he is alleged to have aided Daniels in making his escape, after the lutter's escapede with Maud Miller, when the police wore after them.

in making his scape, here the police were after them.

Captain August Friedburg, of the schooner Vesta, was fined \$20 for assaulting John Politing, his cook. The cook's head was badly battered up. O. Thompson, who was arrested for assisting in the assault, was discharged.

Minciel Drook, who was arrested at the request of J. A. Knelline for threatening the latter's life, was placed under \$200 bonds to keep the peace.

The case of Andrew King, charged with stealing a quantity of clothing from a valies in the warchouse of the U. C. & B. T. Co., was continued until this afternoon. James McNell and S. F. Royce, two simple drunks, were fined \$5 each. Fred Blum paid \$10 for treevassing, and W. Domingco a like sum for cumping rubbish where he had no business to.

WILL OPEN IN PORTLAND.

Portland to Be Largely Advertised-The City Banafited.

Have Effected a Lonso of Two of the Large Storerooms of "The Portland" -One of the Largest Real Estate Firms of the Northwest

There is perhaps no company bett a known in the Northwest to-day than the Oregon Land Company of Salem. Or. This single company has done more to push Salem to the front than all other agencies combined, and the extensive advertising that they have done in that city have redounded greatly to the lasting benefit of the state at large. It can be trainfully said that the remarkable growth and improvement of the "Capital City" commenced with the organization of this company, and the phenomenal-pros-perly of Salem to-day can be directly traced to the energy and enterprise of this organi-

The Oregon Land Company has just leased of Hon. H. W. Corbett, president of the Portland Hotel Company, two of the fine office rooms in the southeast corner of the Hotel Portland for five years. It is the intention of the company to have these rooms furnished and ready for occupancy by the lat of March. One of these rooms will contain an elegant display of Oregon products from which strangers visiting the city will be able to form an opinion of the viried resources of this state. These will be the largest and best fitted-up real estate offices in the state, and will command the attention of not only the patrons of Portland's big caravansary, but of every tourist who ever pays Oregon's metropolis a visit.

The energy and spirit of the Oregon Land Company can be appreciated from the statement that they have regularly spent upwards of \$12,000 per year in advertising Salem and the rest of the state, and the results of this liberal expenditure in the increase of population and business in that city have been beyond their most sanguine expectations. The company amounce that they mill pursue this same liberal policy of advertising in their Portland office, only on a much larger soale, and they trust that the benefits to the city here will prove as large as they have been in Sulem.

PLENTY OF JACK RAEBITS. The Oregon Land Company has just leased

PLENTY OF JACK RAPBITS.

Jack rabbus have been shipped to this market from Eastern Oregon since the snow came with a fluoncy that seems to indicate that the rabbits have run their race in that section. From the piles of these long-eared, long-legged animals seen about the markets, and which seem to find purchasers, it looks as if the people of Portland would soon be in the fix of the Down Easter who got lost in the woods and subsisted for a month on rabbits straight, and who celebratec his delivery and return to his natural diet in the following poem:

Of rabbits young and rabbits old, Rabbits hot and rabbits cold, itabbits tender and rabbits rough, The Lord be praised, I've got enough. that the rabbits have run their race in that

REDUCED RATES TO CHICAGO And All Eastern Points.

The Union Pacific overland route are now selling first-class limited tickets to Chicago \$69, second-class \$39. Two daily trains through to Chicago. G. S. Tay, or, city ticket agent, 81 First street, corner Cak.

OUR AGE OF INON BEGUN.

In another place will be found an interest-ing statement reproduced from the Spring field Republican, showing the remarkable do cline in the value of the screen results of United States an the i-st ten years The home value of our spont I product of wheat has decreased from about five hundred millions in 1879 to less than three and a hali nois in 1889 The decline has been nearly millions in 1889 The decline has been nearly steady and uniform, the only exceptions being a fall to 275 millions in 1885 and a rise in 1889 to a point higher than had reached since 1883. The crop falled in 1885 and fell below the average in 1886. In 1889 crop was the larg at since 1884 and a ortage in other parts of the world brought rly good prices Shill the total value of fairly good prices the crop was more than 150 millions less than that of the smaller crop of 18"9 The explanation of co ree is low price.
The crice of wheat and other cereals as well has been steadily decluing for ten years past. The business of frowing cereals benomes anonally less pro table an the United States: Commenting upon this state of things the Republican 3: 73

things the Republican stys.

Here is an anomaly in production which ought to see people who are pond ring over the farm problem to thinking in n dire long. With a the flood of a stationary swyrly and increasing demane should price at cline? Wind there bus ness in the United S ause on side of agriculture is subjected so extraordinary a desirition from the natural lews of trade? He fong can the Wetern farpare in der these of a none leep up the pace set by the mortgage loging with which he has so liberally availed him self? In view of the facts here set forth is can rendily be even the reports coming with increasing frequency from agricultural sections of the West of a deep seated and spreading feeling of deconten among the farmers over prevailing criditions which portunds of a profound commercial and political distributions.

turbunce.

It is not an anomaly It is not a devia
tion from the natural I we of trade It is ton form the natural laws of trace trace not portentous, except as even; economic transition porter de some me sure of secul fration and some discon fort to individuals. It striply means that we have overdone a business which is wasteful and unprofitable. at best-that of raising food materials for export. It wirns us to turn our capital and export. It with a us to turn our capital and latter to more profitable account. It remines us the cultivation of circuls for exporting a fit employment only for people in a lower state of development than ours and that industrial employments are a fitter outletfor the talents or pacity as denergies of a people who have reached the stage of civilization in which we find ourselves, is notice to us that our golden age of pas-toral and bucoke life is anded and that our age of rou has begun. We must stop farming for export and go to manufacturing our own needs first perhaps for export alici-

So far from being an anomaly, the stordy decline in the value of our cereal product eland 1879 is the sample and natural result since 1879 is the simple and natural result of obvious and unnits it ible causes Solongids a considerable position of our cereal cropds marketed abroad the price at home will be regulated by the price at London the commercial center of the world. The London commercial center of the world. don price is governed by the conditions of demand and supply all over the world. These conditions have undergene a wonderfol dhange us to cerolls since 18"9. The high prices that crosted previous to that thise attracted captual to the development of the wheat growing industry in remote parts. of the world Railroads were built in Ir die a new stimulus was given to the wheat culti-to in keppt and above all the hight of the profit e direct from wheat growing in the United States employed the people of Anstralia and bouth America to abandon outtle growing for it All these countries have become competers of the United States in the supply of corn to Europe since 1679, and every one of them is under more fa orable conditions and can supply the wheat obeaper India has obtager iabor and on y needed the raironds which the Linglish gov ernment has built. Australia has cheapl unds and the Argentine Republic, flot only cheap lands but a ma_rificent interior system of water transportat on, equal in effectiveness to the costly system of government rull ways in India All these countries not only can theoretically but do pr cheally grow wheat for the Luropean market cheaper than the United States. In yahaya been pouring constmitly increasing quantities of it into the Lundon market for more than In Ir land while private chirally d much, state aid was generally relused until too of this progressive increase of surply. The fall of price in America is the sure consequence of the property of the decline of the London price so long as we grow a cereal surply a for export. If we are going to grow food products for Europe we must do ton her own terms that is we must take first just what ladia South America and the Argentine Republic will take Our farmers and farm laborers must be satisfied with the price that positions to the flat, and the transformed in and individual of the language of the language of the farmer of the form of the gall to the converted waguero of the Plat, and the transformed we years past The progressive depression farles has been the matural consequence vaquero of the Plat, and the transformed

wagner of Austrafia.

This would be rather a gloomy prospect if
America had no brighterjde-tiny before her
than that so thoughtfully marked out for
her by Mr. Gial-stone to grow food prod test for lang at 8s Leypt grew wheat for Rome— a be the !! chang udes of Lurope It would and the far "seeing tates men on dustrial britain to see the United States remain in this position. She would keep a outgrown the lunc ion of food producer fer Europe—leaving it to those less developed proplets who are more fit for it. I'ven in ad range of the decline in our arricultural poapon the success if comjett on of more invored in al , an the consequent full of careel mices up the world's market bas come the ocitain i romise of an industrial chargeter and to denous. The manufac tures of the timber \$1 tes baye been growing while the real children was accluding. The program of let had our product of mine. ufactured notes thrown equal to our con-sungton to all ady long dwell upon in litte (n go an As a mulu it corollers in the fire completion has brown the pure of the large and lower to it. consumption of the United States, is in the case of iron. This is probably breaks we export est of the former, as much as be cause we import more These industries can hardly be in as favorable a position as iron until we either equal the European loom in the finer manufacture of textiles or from in the intermaninature of extities or find a market about for enough of our courser o balance our imports of then. Manufacturer and merchant are now earliestly laboring to solve both these problems. I rogress enough has been made to warrant the built that our destinance on administration. the belief that our destiny as an industrie nglion is fixed, that we are passing out of the agricultural stage of food producers for t e world and enturing apon the stage of greatest diversity and highest prosperity which a nation grows only its own food by a diversified and profitable agriculture, sup plies 11s own industrial was its with its own manufactures and exports its surplus, if any, in the form of highly finished products instead of crude toud material. That is to gay our mon age has begun

INDIA AND INELAND

Gladstone's circular to his supporters in ndvance of the meeting of parh ment shows no loss of faith in the u timate success of no loss of thith in the u timate success of home rule for Ireland. It is a currous fact that Gladstone has never contrasted the good effects of home rule in India with the the evil consequences of its kinned in Ireland. the evil consequences of its form in ite-land. A Bengal magnetiate, who his spent nearly fifty years in Ireliad and Indiare-cites in experience in the Contemporary Re-tice. He spenks whereof hellows for in India he is represented he government in its dealings with populations reaching to 000 00). These five initions of it for in traces and Imphy, once bitter foes are now at reac ho soldiers are necessary, none present save a few companies of idle beposs Ire find is garrisoned by 42 CCP so diers and this Bengal magistrate dwells on the contract which Brin h rule exhibits in Ireland with its 4 000 000 of re-tless erun.bler and the great empire of India with the 250 000 000 of

enceft i totlers The whole Irlan ruce in Enrope America and Austra assupport it smoothment for hone or rule with their contributions, while in India tie masses have given it the or nothing in out port of provingual, g chica, The difference in the present studies of the length o population of 8 000 000 while England, Wales and Scotland and but 18 000 000 At present there are less than L 000 000 in Ire lind against 33 000 000 in Breat British from one third of the British population the frush live sunk to one goth. There used to be 70 000 frishmen on the British army but last year there were only \$1,000, or about one bith as many men of Irish race as fought on both sides of the American civil war During the fifty years that have wit has enormously and rupidly increased in wealth, strength and population Oude, Eurmah, the Punjab, beside and Nag our have been annexed watch represent 77)000 square miles and a population of 57,000,000 I rom the new provinces have been raised the Sikh infinity, and the Choorkhas cavalry, as fine troops and as loyel as the British army cortains. The reof Inha who have all been conquered within the last firty years have by wise and buma is government been riade the most loval subjects of India During the muticy of 1967 these great murical rices of India stood firmly by the English flag which they had length to the bitter death in the hards of Nijer, Cough and Rose less than twenty year shelore. Lity years of misgovernment in Ireland has cost Engli in three millions of Irishmen while lift years of wise and firm government has added sixly millions of oval and contented subjects to British Indin-men who are not like the Southern rucs of India, effectivate topiers but are at once sturdy workers and splendid fighters. Ireland and India have bo h suffered ter ribly from namine In he funite of 1847 48 a million of Irish people perished from want of food or the consequent fever. The suit was an enormous em grahon to America and the establishment of a prosper ous New Ireland that hates Great Britain In India there have been four great famines In that of 1877 79 above 6 80 000 are offi cially reported to have perished and yet the

land and India evict one are c Oude a province smalle than Ireland there were about \$9,990 eventions in one year in 1849 there were some 20,000 eventions in Ireland which asak in 1888 to 900 In the other provinces of India, however than Ireland the land ords have been evicted on a large and to Bangal and the Paurib the tenent is protected by logal enactments. In India evictions present none of the hard fruit res of Ireland, because they can only be effected in April after the hu west is out Further the tenant as des in a vi lage after eviction from his farm, he generally return his house and may get oth r fields so that tin couble hardship of loing both house and and the unrooting of the home under a nat try sly, never happens in India

A SHALBY I XYEDIKAT

Tuere 14 a class of newspapers that find it a ready expedient, when out of a topic to take up some statement ir in The Olicon lan and distort and misrepresent it liere for example is the democratic paper of Pendleton saying THE OREGONAN now thinks that not only jute and bagging material seloud be put on the free list builtout die on the free list builtout into and steel manufacturing is a full grown industry and ought to take cure of itself without protection "

This is a positive and mexcusable misrepresent tion of THE ORIGONIAN S statements As to from and steel, THE ORIGONIAN showed that the product of the United States was equal to that of Lugiand and therefore that the industry in our country might be said to be soundly established. But it did not ay that the industry could take care of itself or sught to take care of itself without protec tion. On the col trary it said that though the protective duty on steel and from 1 2 corthe protective duty on steel and non-river tain forms might properly be reduced nevertheless it would not do to take off the whole duty and leave the industry without protection, since it his were done England with her chapper labor and cheaper capital, would attack our mainstrees and at a 1ss to heresiff for a time, would undersell our main herself for a time would undersell our min American market and having broken ion at the American market and having broken ion a American production in this way, would then recover by charging higher prices duty should new 174 be kept at figure that could prevent this result In regard to begang materials it show

that while the true policy for r country at the present time was let in these miterials free since we are not producers of them a rate of dust capit to be maintained on by sufficient to entitle our own factories to make them. It was slown that the piece of bases is not in creased by the duty but is made by the grout bag trust at Celentia, by which it a bag mariet is absolutely controlled. By letting in tle materials free and yet maintain ng a duty on bags, we should be able to but d up gradually an industry that would supply bags for our own market and in time make independent of the Calcutta bag tru t but so long as the bug mirket is wholly in foreign hands we shall be made to pay for bags the utmost farthing that the trust can

This in substruce was the way in which THE URIGORIAN put the statements that the Pendleton paper distorts. Its not seems to proceed out of mere wentonness since there does not appear to be anything in the cx. generes of political campaigning at present that calls for such garbling twishin, and

misrepresentation The withdrawal of the Union Pacific and the Chicago & Northwestern from the Inter State Commerce Railway Associatio 1 was to have been expected even before the re-cent formal decision of Chairman Walker that their traffic arrangement was in violuthat their traffic arrangement was in tion of the rules of the association lihet agreement was plainly opposed to the spirit of what was called the gentlemen's a socia-tion since it contemplated an unequal as tribution of traffic among competing con nections. It could not have been arried into effect without leading to complaints of arges and recommissions which must have broken up the ass ciation so her or later Chairman Walker was wise t bring the issue to a head at once. His formal rul ing that the agreement was in violation of the rules of the association was in effect the expulsion of the Union Pacific the expulsion of the Union Pacific and the Northwestern The other roads are to meet on February II to consider what they will do under the circumstances II is difficult to see how the gentlemen' agreement circumstances are ment circumstances. transcentinental road is trying to do just what the Union Pactfic bas done. The immediate infare of traffic across the continent seems to be in amalgamation of times rather than in division of business a juncrather than in division of educations a fund-tion noisits. When the a muligrantions are completed there may be a chance for a particular agreement among the three or four cranscontinental systems they will con strute. But during the transition it must be every road for uself and the receiver take

The heavy rains of the present week, com-bined with the heavy snows of last, indicate a tage of water in the William atteriver that is illely to cause loss of property as d dam-age to crops along its Lanks. There is com-paratively little farming land however that is exposed to this meason so that a sything like a repetation of the calumity that has once already this winter devastated farms and orchards in the Sacramento valley and is again immirent in that section is not possible. Still there is chance enough for disaster from flood to cause some uneasi ness especially to those who remember the scenes of the flood of 1861 6 unen the en the country configurate to the Wilamette and come of its more brawing thoutaines and come of its more brawing tributations was swept by a valume of water that the carried away bridges houses being fences, hay-stacks—indeed everything unovable in its course and subsiding left helds decryards and orchards denoted sodden pred with critimond and in many instances buried from a few limbes to a foot deep in sand and most unfinitial saddment. While nuch of the loss that would result from a repetition of the high water of that memorable year would be of a nature that prude see could not forestall it is quite possible to ake preclutions that will prevent loss of the either human or animal and this should be done difference between intelligent force thought and unnecessary alarm is plain and while exercising the former it is well to

suard against the latter The family of Ossawatomie B own are said to it in want and subscription s for the purpose of lifting the mortgage from their house and lot in Pisudena (if are nakel As the aged wife of John Brown, ind as d was luried reveral years ago in Sai ta Clara a d his entire family must long air on have reached the self supporting not at a lifter lift to see why they are a straight to thic adding thing homes for thems ives. PRICES FOR OUR CENEAUS.

Figured Computing Production and Value for few kers East.

Priced of corn and data are lower than they have been in twenty-six years says the Springfield Pepublican and while wheat has seen smaller figures in the Last decade, the farmer will get it the more for his crop this year than in 1884, when the aggregate yield vent than in 1884, when the aggregate yield was the greater tyer recorded and prices was the greater they have been in ten years. According to the agricultural department, the everage prices of farm products were lower in December than ever before. The lowest previous average for corn is given by this report for 1878 when the price touched 31 8 ochts a bushel again m 20 1 for the present crop But Iowa reports corn at 19 cents, Kinsas at only 18-cents and Nebrasha at 17 k mass at only 18-cents and Nebraska at 17 cents, and the farmers are 1 urning it for fuc.) The crop is larger by 22 000,000 business than in 1838 but the "gargate price of it will be much has to the I omer. Oak are given at 23 cents against 21 5 cents in 1878 but oats have declined since the issue of the reports and now barely exceed 20 cents, while Kansus and Nebraska report 10 cents or less.

while Kansus and Represent to the core fees.

We have then, with a wheat crop for 1889 of 490 660 600 pushels, an aggregate value to the producer of at out \$346,990,000, and with a corn crop of 2 030,000 000 bushels an aggregate value of about \$600 000 for the producer. Prices at the point of product on are not at hand for a like estimate for 1883 and 1887 but for the years preceding back to 1870 the record is complete for comparison of the home value or value at the point of production of these two great agricultural stiples. The story of the wheat crop is best unscented in a tabulated form as fo lows; stor; of the wheat crop is b a tabulated form as fo lows;

This must be counted a remarkable exhibit Wheat production is not increasing but retraively decreasing The yield of 1884 remains the maximum of jecord, with that remains the maximum of secord, with that of 1882, the nearest approach to it. But prices marged of merceating, have been studied declining. The single aller crop of 1879 brought \$150 000 000 more litable farmer than that of 1889. A crop of 10,000 000 bushels leave in 1881 brought \$100 000 more than in 1899. A crop of 14,000,000 000 more than in 1890. For four years prior to 1883 the wheat crop of the country never fulled to yield at the point of production over \$400,000 000 since then it has thever approached those figures. Not is the story of the corn crop any the

000 000 since then it has hever approached those figures

Nor is the story of the rorn crop any the less asymboant. For the seven years prior to 1886 this crop averaging more than 230-000 000 bushels ess than for 1889, brought to the farmer a revenue greater by from \$30-000 000 to over \$170,000 000. The average excess of value being over \$0,000 000 a pear. The out crop has been headily increasing from 107 000 000 bushels in 1879 to 250 000 000 bushels in 1889 but the aggregate value has advanced only from \$150 000 000 in 1879 and 1830 000 000 in 1880 to \$186,000 000 in 1886 and \$167 000 000 ther words, while population in the

In other words, while population in the United States has been increasing from 53,000 000 to about 62 000 000, while consump equal proportion and demand all over the world expanding, and while the whoat supply in the United States remains stationary, values decline rather than advance. With no more than an equal supply and a rapidly increasing demand the flarmer is getting tess and less for his wheat, and with consumption increasing faster than the supply is more supply at the supply and the flarmer is getting than the flarmer and in the face of this stationary supply at what and consumption and the face of this stationary supply at what and consumed the surcorn And in the lace of this stationary sup-ply of wheat and growing lem ind, the pres-ident of the Chicago Board of Trade declared that prices have fullen so low and the cered movement has become so surgest as to seriously affect the business of the exchange.

A CONDEMNED APARTMENT

Why the Frent Cell of the City Juli Should Not Be Reserved for Tough Criminals It is difficult to understand why the front

cell of the city jail, which is the best lighted and vertilated in the building, should be re-served for the confinement of the worst class of criminals. When even a murderer is arrested he is ushered into this cell. So it is with all other oftenders charged with the more seri-lous comes, such as burglary, robbery, as-sult with dangerous weapons, etc. All are boused in this auartment

by the escape of prisoners. It is the most exposed cell in the building without a question The window apening on become street is inside the iron burs, and the sash can be raised and lowered by those confined in the cell at will. When the window is raised only the window. iquezing
The greatest danger, however, connected

taken up, and it was determined to push matters all along the lime and to do every thing possible to-make the exposition of 1890 larg r and better than that of 1899 Recog nir no the importance of having first class nor ng the importance of having first dies music, from the great success scored by Liberari Scoretary Alian was instructed to open correspondence with the leading bands of this contity, including the elebrated Mexican Military band and King Kalakna silved bind of the Sindwice islands and secure terms and the necessity information which will assist the committee in making the most desirable selection.

The great success of the 1889 exposition has been beraided to all parts of the country, and will assist greatly in focal zing important and valuable attractions, so that at this early div the pulse of our assured success ant and variance intractions, so that at this carly did the philse of our assured success begins to be felt by all who have to do with the coming exposition of 1800

This cell is perhaps as insecure as any in the juli as has been frequently demonstrated

with the cell lies in the accessibility to confidentes and pais of those inside. There is nothing to prevent them from passing in saws, chirely, iron bars, or even bre a ms, with which the prisoner, if he is held in a serious charge and is particularly anxious to escape, can shoot his way out perhaps at the expense of the life of the notice cap ain. The fact is, the cell is worse than worthess for the use to which it is put. It can be used to good advantage as temporary quirters for witnesses, or, in the absence of a receiving hospital, as an operating room in one of accidents where the services of a pby scian are required, but it is no place to

MATTERS ACROSS THE RIVER

In Favor of a Con'ract With the East Portland Water Company.

Ice Will Soon Give Way on the Columbia-Very Much Broke Up-Safe Meeded-City Pound, Erc

The Portland & Vancouver Railroad Com-pany yesterday sent their ferry, which has been moored at Johnson's wharf since the freeze up, to the Columbia to make an attempt to break the see up to Vancouver. Owing to the heavy wind storm then prevail-ing very little could be accomplished in the way of breaking the see. The little steamer Rowens which was impresented on the Oregon side at the long wharf of the rail-road by the see, succeeded in breaking the tee for about half a mile. The see was found about four inches thick. No one can now tross oys: to Vancouver. The Portland & Vancouver Railroad Com-

Last evening the ice parted between Vanconver and the long wharf on the Oregon side, so there was a clear space fi ty feet wide across the river, and it is thought the new will give way soon

THE WATER COMPANY & PROPOSITION siderable comment on the part of the citizens of East Portland regarding the proposition of the East Portland Water Comp my to farmish this city with an abundance of the best water to be obtained from a subtrained flow that is sufficient in volume to supply a city of quarter of a million people at a minimum cost to consumers, provided that the city council would sign a cost act with the company for water for city purposes. The following communication to this puper from Dr. John Weith, a pior tent denist or Portland bit whose home is on the List side, 'shows the interest that is being taken in the author by those who have their homes in East Portland. zens of East Po-tland regarding the propo-

their hones in East Portland

East Portland, Or Jan 29—[To the Fot for II-I have all along been convived that it would neither be politic nor wise for the city of East Portland tenter into any hirly contract with the First Portland Weter Campain as you possed by the litter in their eliminance citing of the 19th and to the common citing this contract with the first Portland Weter Campain as you had been so to common to the 19th and 19t

since of the reter who will have the pains it close into it is matter in the price of the water commany is a far one and one wetty. It is most earlied consideration of our common exist.

The yeard days past I have taken part enter notice of the wett flowing from the city state is independent on the city state in the order of the wett flowing from the city state as in the fortand. Turning the lant, one is not lattle surprised to see sense from theer ty same availed of the reterior of the wetter flowing for purposes of ablution if a turson could fin in a better, but for drinking jurposes it is simply abcentually Arcoss the tier from us is a city of 30 600 or more people with all its boasts of weath and prosperly, that denies to its citizens even the cheap commodity of a drink of jure water. In East Portland on the other hand, we are furnished with the purpose that is not affected in the least by the serface drainings of the winers and the same of the serface drainings of the winers and the serface drainings of the winers and the serface in the least by the serface in the least by the serface in the proposition of the East Portland Water Company involve listelf inter.

In the first place this company offers to furnish a city of not to exceed a texth of the population of the first place the company offers to furnish a city of not to exceed a texth of the population of the first just what does the proposition of the fact that its dwis greater its summer than during the whier minimals, as attested by the fact that its dwis greater its summer than during the whier minimals, as attested by the fact that its dwis greater its summer than during the whier minimals, as attested by the fact that its dwis greater its summer than during the whier minimals, as attested by the fact that its dwis greater it summer than during the whier minimals, as attested by the fact that its dwis greater it summer than during the water), will be affected by the fact that its dwis greater it is under to consider the first part of the first fan

THE REVIVAL MEETINGS. Th heavy storms have had no effect on the attendance at the revival meetings in prog attendance at the revival meetings in prog-ress at the Centenary M. E. church, as the audionee room is filled every night. More than 100 attended the atternoon meeting sesterday, and were treated with a vigorous lecture by Dr. Bushong on "Faith and Trust." Sixteen joined the church Tuesday night and there are soccession-every meet-ing. It is not known when the meetings will terminate, but not while the present ex-traordinary interest continues.

A SAFE NEEDED A lawyer remarked yestorday that it is a matter of surprise that the city council does not provide an adequate safe for the secure not provide an adequate safe for the secure keeping of the city's record books and papers. He further remarked that the city's records were burned up at one, ame, and the same thing may happen again. It is neces-sary to keep the tax fecords and other val-uable papers in a wooden case as the safe in the city hall is not large enough. The council should purchase a safe with as little delay as possible.

A NEW \$25 000 BLOCK

T J Jones, the architect, yesterday com-pleted plans for a three story brick block, 50x100 feet, for Henry Bayber, the under-50x100 feet, for Henry Barter, the Undertaker. The bund ng will be elected on the
corner of Fifth and L streets, and is estmatch to cost, when completed, \$25 009. The
first floor will be used as stores, the second
as offices, and the third will be fitted up for
lodging apartments. The entire bunding
will be heated with steam, and will have
peaking tubes and all other modern conyeniences.

CHARGE DISMISSAD. CHARGE DISMISSAD,

The charge against Charles Mathus for horse sterling on motion of the prosecuting attorney, was withdrawn and he was disattorney, was withdrawn and he was dis-churge for cuttory. There was nothing to show that he bad ary intention to steat the horses b i in just dishot return them. To Whom it May Concern:
I can freely say of Dr. Aboru to whom this letter is given that I have for him high estoom as a gentleman and ge a physician. I have been for some time acquainted with him quite intimately, and says found him theorogity a gentleman straightforward in business and prumpt in actions as in promise. As a phys claim he has in this city, where he solourned during the summer, given you for great, if not formarkable skill. I am acquainted with many of the persons in this state whom he has cured of diseases that were considered incural by and have been at several times a winces to his experiences in difficult caree.

J. M. CLARRON, Editor "Register" in the property of the prop

Dr Aborn brings a personal letter from H. R. Rayer. General superintendant of the Chicago, Book Island & Pacific Hatbroad, to the Hon C. A. Dolph or this city. There endorsements and personal letters of high lestem, both as a gentleman and as a distinguished physician in his closed appearance of the people of the entere coasts, a victim of a national equation, which be has so justify acquired.

A VETERAN.

I was wounded in the ign at the hattle of Stone River Dec 31st, 1862. By blood was polsoned from the effects of the wound and the ice and either of the wound and the ice and of the interest of the many pears. It he poison extended to try whole system and I suffered a thousand cantile. Nothing did me any good mittil I note with a Spetche, which took the poison out of any system, and a cabin do may to leaf myself a man again. E S is the remedy for blood polson.

The Last of the Ashland Passengers Arriva-Northern Late Rivers Bising Rap idly Upring Valley

The Scutbern Pacific local came in yes terday at 3 30, and the Ashland train a few minutes later. The passengers felt glad to get back, away from the kingdoni of block ades any tandsides.

ance and innusinces

Buperintendent Brandt said yesterday in
speaking of the situation The Earliam 's rapidly rising and between Turners station and Siem, the tract is inun-dated New Claskams, station about eighteen

Turner a station and in 1-m, the tract is limited to the Cap Clack-mass station about eighteen unders of water covers il e tract.

The greatest trouble is between Cottage Grove and Drain! The situation there is somewhat dan grood. I do not think any serious damage has been done north of Rossburg. There is no snow between there and Riddes but in the canyon south of there I do not know how much snow may be plied up. I shall probably run the train no further than Alhamy Northing could induce me the transpose of the culverismay be wasted out, consequently a terrible necidentiwould follow. The Santiam river has sign four hickes to-day and is still going up. The Williamshit is also rising very fast. Concerning the situation south of Ashland Tommot speak accurately, because our wires and all down. I think care on the eve of one of the word spoils of high water hat her been seen here for years. This can not octar of course should the footbill's retain their snow but if it comed down all accomes there will be a serious calamity. The water has been failing in all the serious calamity.

down all at once there will be a serious calamity. The water has been failing in all the streams except the bandam and the Will ametre. Mr. Brandt considers it little short of a kirracle that the last Ashland train was safely brought through. Men were sent south through Oow creek canyon and ansother gang north shead of the train. They reached Riddles within an hour and a half of each other and were then started back ahead of the train to clean away snow and earth shifter they. It this may the train ahead of the train to clean away show a earth diding down. In this way the train was brought safely through " The precat-tion was a wise one for if a had blockade had occurred in the conyon with the pres-ent condition of the road the passengers would almost certainly have starved to death. There are no provisions there and none can be got in

Future movements of Southern Paulic trains south of Albany are wholly uncer-

The Northern Pacific trains between here and Treome are forced to make cautious progress on account of the rams and snow Yestorday's train came in about 5 o clock. The main line is reported open (I reight is coming in from Chicago and St. Paul in mine

The main line is reported open. (I regail is coming in from Chicago. In St. Paul in mine and Seven days, respectively.

The Union Pucific has brought in the car loads of cattle belonging to the American Dressed Mest Company and also tex cars of freight delayed by the snow blockade. The read is open, but it is lived work pulling from through it is section where the show is deep, and not take two or three lobomo invests of right apassenger from there is not opposed to get the freight power as rapidly as could te withelf it is division in bytrowed Tour he was trivial a local complete to get the freight of come from the boundard delayed freight it once he is move on all delayed freight it once he is tereful manufacturing everything was progressing favorably. But about 10 octock it where went down east or Umritial and how things have been moving a nor is not known) but a train was expected to arrive during last might or this morning.

List evening it was learned that there has been sent out but at 45 the wires were down in judgic could be obtained.

The Aureov Chauge is running is in through on the file that we the entire of the forming.

tionars could be obtained

The Larrow One is running clear
through on both the first and West Sides
on schedule time. During the heavy ray
the West Sides from is brought back from
Africe to Monmouth at night for foar of
any accident to the Luckmmute bridge from
the float. THE WESTER AND RIVER

Adde from the mit lation of portions of the Southern Lacific's track, the most may portant trouble of the rr n in here the Camage to the Vesters Union's wires south and to Asio is Their railing reports are received from the canyon and it is looped that by boon to lavial connection to points south will be estail wheel.

The Precise Positi Telegraph Company's wires to San I rule co hi ve been concevned interrupted to day but still they have man aged to carry the greater back of the rust ness efficied them as well also as to allow the relired people to manipulate the movement of their trains between area and ashund

F ederick, Wards as Damon at 'be Now I ark-The Shangbrour" at Co-dray s Oth -Amusem-ats

Eredenck Ward's popularity in such robustroles as Damo's and Vinguis can be easily understood when one witnesses the strong individuality which he throws tuo his delinention of them. There is an earnestness and rugged strength in his uterial cool the fervid lines askally placed in the mouths of these characters as well as an air of stern lot esty and integrity about his bearing in them that stamp the character with the mark almost of gamus. In no role which he attemps are these evidences of special ability more strongly mirked than in that of Damon. There is something too about the play of Damon and Lywinke, that appeals to the popular heart and sympathics—its central figure a patrict who would rather die than outly elis country, its leading motive the fedity of one frierd to an other even into risking bis life to do him a

rather die than out! ve is country its leading motive the feult of one fried to an other even unto risking his life to do him a service.

Mr. Warde a Damon as seen at the New Park theater last right is equilly as strong equally as dran after ind forceful as when la t presented in Portland. His reading of the high souled cloudent lines is an impassioned and earnest in the herole art is samplathetic and moving in the tinder sounce. He rises to heights of dran the force in the same excite it if only one of fine artistic powers could attain and taken as a whole, his impersonation is full of virility and intelligence.

The Pythias of Mr. Charles W. Sutton was fairly well done. He is a direct confrient to Damon, he the soldier Damon like statesman and so the character should be represented. Mr. Sutton does not quite leach to the derinds of the part though he shows counsationess and careful ness that are creditable.

Miss Stella Rice as the soft Cal nitle, scarcely comes up to the ideal of the part Stellacks the impulsiveness guil-biness belonging to the carifer sceanes, and is in lined to the ideal of the part stellacks the impulsiveness guil-biness belonging to the carifer sceanes, and is in himself called the defective.

L. P. Rand as Phillishus Clay Coment as Dionysans, whitred Clube is I uculius were all effective.

Dionysius Willred Clube is Lucullus were all effective. The in idience was warm and enthusiastic and Mr. Warde recented numerous routh To might Mr. W. ord. in his great teater sonation of William. Belphegor, the Wounte HEL NIST LITERCES! Y
